Anna's ssh command

ssh -i key.pem -Y ubuntu@115.146.84.207

Question 1

Using the 'man' command, what is the -Y flag adding to the ssh command?

A) Forces ssh into loud mode

B) Specifies the user to log in as on the remote machine

C) Enables trusted X11 forwarding

D) Asks ssh to display the version number and exit

E) Forces ssh into quiet mode

?

Exercise 1

sudo apt-get install firefox

Exercise 2

```
sudo apt-get install gedit

gedit today.txt
```

Exercise 3

sudo apt-get remove gedit
